

CUT, STRIP, CRIMP, PUNCH – ALL IN ONE

For power panel builders: our panel build pro-package

EFFICIENT WIRING WITH INNOVATIVE TECHNOLOGY

Micro | electromechanical crimping tool 0.14 - 50 mm² EK 50 ML

FAST, LIGHT AND EFFORT-SAVING - TODAY'S APPROACH TO CRIMPING

- Revolutionary PowerSense Function
- Manual pre-clamping. Motor-driven crimping.
- Ultra-light and ergonomic
- Weight: 0.96 kg

Battery-powered hydraulic press tool 6 - 120 mm² EK 30 ID ML

SMALL DIE-FREE BATTERY-POWERED HYDRAULIC TOOL

- No die-change thanks to use of indent crimping
- Crimping range 6 - 120 mm²
- Weight: 1.95 kg

We now offer efficiency and safety for control panel building as part of an all-inclusive worry-free package. Whether it's cutting, stripping, crimping or punching: our power package has just the tool you need!

NEW

**Battery-powered hydraulic press tool
for cable end-sleeves 6 - 120 mm²
EK WF 120 ML**

**SIMPLE AND SAFE CRIMPING USING
INNOVATIVE TECHNOLOGY**

- Optimum results thanks to square crimping
- Crimping range 6 - 120 mm²
- Die-free battery-powered hydraulic tool
- Weight: 1.96 kg

**VDE-standard battery-powered hydraulic cutting tool
ESM 50 IS**

IF IT FITS, IT CUTS IT!*

- Cutting range up to Ø 50 mm
- With integrated voltage protection
up to 1,000 V
- Weight: 3.1 kg

*suitable for multistrand, fine and superfine stranded Cu and Al conductors up to Ø 50 mm as well as solid Cu conductors up to Ø 20 mm and solid Al conductors up to Ø 50 mm. Also suitable for sector shaped conductors, e.g. NYY-J 3x185 SM/95 SM. Not suitable for steel ropes and ACSR lines.

CONNECTION TECHNOLOGY SYSTEM CONNECTIONS.

Tubular lugs, Cu, standard design 6 - 400 mm², R-series

- For multistrand round conductors, e. g. as per DIN EN 60228 Class 2
- In combination with the EKM 60 ID suitable for fine-stranded conductors
- For round sector shaped conductors

400					14R12	14R14	14R16	14R20

Tubular lugs for switchgear connections, Cu, narrow palm, standard design, 35 - 300 mm²

- For multistrand round conductors, e. g. as per DIN EN 60228 Class 2
- In combination with the EKM 60 ID suitable for fine-stranded conductors
- For round sector shaped multistrand conductors
- For terminating in panel board systems with reduced connection area

DIN-compliant insulated cable end-sleeves with Easy Entry 0.5 - 150 mm²

- For fine and superfine conductors e. g. as per DIN EN 60228 Class 5 and 6
- Easy Entry insulation for splice-free conductor insertion
- Halogen-free
- Colour coding and dimensions according to DIN 46228 Part 4
- Alternative colour coding available
- Available as version without plastic collar 46228-1 from 0.25 mm² to 240 mm²

For ordering information, item numbers and further information, visit our website:

Insulated solderless terminal 0.1 - 6 mm²

- For fine and superfine conductors e. g. as per DIN EN 60228 Class 5 and 6
- As per DIN 46237
- High-quality brazing procedure in the crimping barrel
- Halogen-free insulating sleeve

For ordering information, item numbers and further information, visit our website:

Insulated twin cable end-sleeves 2 x 0.25 - 2 x 16 mm²

- For fine and superfine conductors e. g. as per DIN EN 60228 Class 5 and 6
- Twin cable entry
- Colour coding in accordance with DIN 46228 Part 4 (0.5 - 16 mm²)
- Halogen-free

For ordering information, item numbers and further information, visit our website:

ST 11 B shaker with insulation Cable end-sleeve 0.5 - 2.5 mm², DIN 46228 Part 4

- Shaker from impact-resistant plastic
- Stackable and reclosable

For ordering information, item numbers and further information, visit our website:

PRESSING WITH RELIABLE PERFECT CRIMP CONNECTIONS.

EK 30 ID ML battery-powered hydraulic press tool 6 - 120 mm²

NEW

- Indent crimping – changing of crimping dies is not necessary
- Powerful 10.8 V Li-ion battery technology with charging level indicator
- Closed head, hinged, swivelling
- Simple and safe: one-button operating concept for controlling all tool functions

See also our explanation video
about the EK30IDML at:

EK WF 120 ML battery-powered hydraulic press tool for cable end-sleeves 6 - 120 mm²

NEW

- Innovative square crimping – use of crimping dies is not necessary
- Powerful 10.8 V Li-ion battery technology with charging level indicator
- Closed head, swivelling
- Simple and safe: one-button operating concept for controlling all tool functions

See also our explanation video
about the EKWF120ML at:

EKM 60 ID battery-powered hydraulic press tool 10 - 240 mm²

- Extra-wide crimping range thanks to innovative 2-stage telescopic cylinders
- Indent crimping – changing of crimping dies is not necessary
- Closed head, hinged, swivelling
- Also available as crimping tool with integrated voltage protection up to 1,000 V (EKM60IDISB / EKM60IDISM)

EKM 60/22 battery-powered hydraulic press tool 6 - 300 mm²

- Large crimping range up to 300 mm²
- Closed head, hinged, swivelling
- Also available as crimping tool with integrated voltage protection up to 1,000 V (EKM60IDISB / EKM60IDISM)
- Suitable for swappable series 22 crimping dies

**K22
SERIE**

Find out about Klauke Orange Tools
in our video:

EK 35/4 ML battery-powered hydraulic press tool 6 - 150 mm²

- Large cross-section range up to 150 mm²
- Narrow pressing head - ideal when space is critical
- Powerful 10.8 V Li-ion battery technology with charging level indicator
- Closed head, hinged, swivelling
- Simple and safe: one-button operating concept for controlling all tool functions

EK 50 ML electromechanical crimping tool 0.14 - 50 mm²

- The Klauke micro with its intuitive PowerSense function combines the advantages of manual press tools with the convenience of battery-powered hydraulic press tools
- Excellent crimping results with minimum energy use

Find out about the EK50ML
in our product video:

K 05 Synchro press tool for standard design tubular lugs and connectors, 6 - 50 mm²

- Synchronised die change ensures matched sizes
- Cross-section indication on marked adjusting wheel
- Hexagonal crimping
- Also available:
 - K 06 Synchro: 6 - 120 mm²
 - K 09 Synchro: 25 - 150 mm²

K 82 A Press tool for insulated conductor connections 0.5 - 6 mm²

- With additional locator to ensure a precise crimp connection
- 33 % less effort required
- 3K Comfort handle
- Less effort required thanks to new lever mechanism

K 30/6 K and K30/4 K Press tools for cable end-sleeves and twin cable end-sleeves 0.08 - 16 mm², hexagonal crimping

- One crimping profile for all cross-sections thanks to automatic cross-section adaptation
- Hexagonal crimping
 - K 30/6 K from 0.08 - 16 mm²
- Square crimping
 - K30/4K: 0.08 - 16 mm²

K 32 TWIST-it press tool for cable end-sleeves 0.14 - 10 mm² and twin cable end-sleeves 2 x 0.25 - 2 x 4 mm²

- Unique long service life
- One crimping profile for all cross-sections thanks to automatic cross-section adaptation
- Quick change between front and side sleeve insertion
- Extremely small, light and ergonomic

CUTTING SIMPLY EVERYTHING.

ES 32 F ML / ES 32 ML Battery-powered cutting tool Ø 32 mm

- For cutting fine and superfine copper conductors (ES 32 F ML)
- For cutting multistrand copper and aluminum conductors (ES 32 ML)
- Narrow scissor cutter head - ideal when space is critical
- Powerful 10.8 V Li-ion battery technology with charging level indicator
- Open head, swivelling
- Electronic control and monitoring of the work process

ESM 50 battery-powered hydraulic cutting tool Ø 50 mm for copper and aluminum conductors

- High cutting force for cutting copper and aluminum conductors (including fine-stranded)
- Time saving when making multiple cuts thanks to return stop
- Open head, swivelling
- Also available as cutting tool with integrated voltage protection up to 1,000 V (ESM50ISB / ESM50ISM)

in our video:

* Only for Klauke Orange Tools

NEXT GENERATION FEATURES

All Next Generation tools have the following functions:

GENERAL PURPOSE TOOLS THE ALL-ROUNDERS.

EKM 60 UNV battery-powered hydraulic universal tool
6 - 300 mm²

- One head for pressing, cutting, punching – One tool for all occasions
- Ideal for assembly because all common tasks can be performed with just one tool
- Small and narrow, perfect for cramped conditions
- Universal head, hinged, swiveling

Adapter and dies

Adapter for crimping dies of the series:

K22
SERIE

K18
SERIE

K5
SERIE

Cuttings dies

Additional dies

An overview of the adapters, available dies and tool information can be found on our website:

- Select your battery system: Bosch or Makita
- All data is simply read out via Bluetooth (i-press® App)
- LED for lighting up the work area
- Simple and safe: one-button operating concept for controlling all tool functions
- Fatigue-free working thanks to well-balanced center of gravity

- Simple and safe: automatic return after completed work cycle
- Automatic return stop (ARS) for position control during multiple crimping cycles (press tools)
- Manual return stop (MRS) for efficient working (cutting tools)

STRIPPING PRECISION PREPARATION.

Stripping tool with continuous stripping range from 0.03 - 16 mm²

- First stripping tool with continuous stripping range from 0.03 - 16 mm²
- Perfect for damage-free stripping of solid and fine-stranded conductors with PVC insulation
- Fatigue-free working thanks to ergonomic design
- Safe working thanks to integral anti-pinching protection
- Long lasting tool thanks to easily replaceable blades
- Integral wire cutter for up to Ø 9 mm

K432V Automatic wire strippers, 0.1 - 4 mm² K432U Automatic wire strippers, 4 - 16 mm²

- Particularly suitable for application-specific conductor types in sectors such as mechanical and plant engineering, wind energy, robotics, eMobility as well as marine applications, shipbuilding, railways and rail transport.
- Self-adjusting cutting and stripping tool for application-specific solid and flexible conductors
- Perfect, light and ergonomic tool with long service life
- No fanning out of the individual conductors - simplifying insertion of the conductor into the cable end-sleeve

I-PRESS[®] SOFTWARE AND I-PRESS[®] APP

Connectivity is the overall concept for the digital applications that Klauke makes available to its customers to optimize use of its tools. This includes the Klauke i-press[®] Software and i-press[®] App. These applications offer you new possibilities when used with any of the Klauke Next Generation tools.

SHEET METAL HOLE PUNCH QUICKLY AND CLEANLY.

Speed Punch™ sheet metal hole punch system

- Innovative thread-free assembly
- Simplest and quickest handling because screwing on and off of the locknut is unnecessary.
- Punching capacity:
St 37 material 3.5 mm thick
16 - 64 mm

For ordering information, item numbers and further information, visit our website:

LS 50 FLEX battery-powered hydraulic punching tool

- Optimal accessibility thanks to 360° rotating head
- An integrated pressure sensor increases the service life of the hole punch
- Automatic limit stop increases the life of the tools
- Punching capacity:
St37 max.: 104.8 mm for a material thickness of 2.5 mm
V2A max.: 50.8 mm for a material thickness of 2.5 mm

LS 100 FLEX battery-powered hydraulic punching tool

- Extremely high punching force - 100 kN
- Optimal accessibility thanks to 360° rotating head
- Automatic limit stop increases the life of the tools
- Punching capacity:
ST37 max.: 152.4 mm for a material thickness of 3 mm
V2A max.: 104.8 mm for a material thickness of 3 mm
